

ENSEMBLE MAKEUP

GENERAL INFORMATION

The ensemble will be using a clean/natural look called basic corrective. It is essential for defining features under harsh stage lighting.

You can purchase professional stage makeup kits (e.g., Ben Nye) but some street makeup products can be used. Look for key words like “high pigment”, and “full coverage” when shopping for stage makeup. Wet n Wild, NYX, and e.l.f. are all effective brands that are affordable.

ENSEMBLE GROUPS

Amber, Burgundy, Cherry

The younger performers will not need a full face of corrective makeup. Blush, mascara, and a natural lip color or tinted lip balm are more than enough for their soft features. If they are blonde, consider adding a light eyebrow pencil for definition.

Orange, Daisy/Emerald

These performers will be in full basic corrective. This includes: base/foundation, blush, eyeshadow, eyeliner, mascara, brow pencil, and lip color, all in natural colors.
